* FEMA allows increasing the 5% Initiative amount up to 10% for a Presidential major disaster declaration under HMGP. The additional 5% Initiative funding can be used for activities that promote disaster-resistant codes for all hazards. As a condition of the award, either a disaster-resistant building code must be adopted or an improved Building Code Effectiveness Grading Schedule is required.

** Indicates that any proposed action will be evaluated on its own merit against program requirements. Eligible projects will be approved provided funding is available.

The Flood Mitigation Assistance grant program provides funds on an annual basis so that measures can be taken to reduce or eliminate risk of flood damage to buildings insured under the National Flood Insurance Program (NFIP). The FY 2019 FMA Fact Sheet provides an overview of the agency's priorities for this year. FEMA will offer NOFO webinars for potential applicants prior to opening the application period.

The Pre-Disaster Mitigation grant program provides funds on an annual basis for hazard mitigation planning and the implementation of mitigation projects prior to a disaster. The goal of the Pre-Disaster Mitigation grant program is to reduce overall risk to the population and structures, while at the same time, also reducing reliance on federal funding from actual disaster declarations. The FY 2019 PDM Fact Sheet provides an overview of the agency's priorities for this year. FEMA will offer NOFO webinars for potential applicants prior to opening the application period.

Both Hazard Mitigation Assistance FY 2019 Funding Opportunity Announcements can be found at <https://www.grants.gov/>. Eligible applicants must apply for funding through the Mitigation eGrants system on the FEMA Grants Portal accessible at <https://portal.fema.gov/>.
