You will be contacted by email when your application is received and approved.
Shelter Fundamentals is a basic level course that introduces the guidelines and procedures for setting up, running and closing a shelter during a disaster. Referencing shelter checklists, participants will work on a case study that takes them through four of the six phases of the Sheltering Cycle: Opening, Organizing, Operating and Closing.

Shelter Fundamentals is available in two delivery formats, instructor-led and online. Both formats cover the same content. This fact sheet describes both formats unless indicated.

- At the end of the online course, participants are required to take a quiz and pass with a score of 80% or higher to earn a course certificate.
- Classroom participants must attend the entire course and complete the classroom activities to earn a course certificate.

Note: Shelter Fundamentals replaces Shelter Operations, Shelter Simulation and Partner Agency Shelter Operations Workshop. A new component, a Shelter Fundamentals exercise is being added to the shelter curriculum. It is currently under development and will be released at a later date.

It is recommended that chapters who have scheduled offerings of Shelter Operations, Shelter Simulation and Partner Agency Shelter Operations Workshop cancel those offerings and replace them with Shelter Fundamentals. The course materials for Shelter Operations, Shelter Simulation and Partner Agency Shelter Operations Workshop will be available until April 30, 2013.

The purpose of this course is to prepare participants to assist in the opening, organizing, operating and closing of a Red Cross shelter.

Upon completion of this course, participants will be able to—

- Describe the tasks of a shelter worker throughout the opening, organizing, operating and closing phases of a shelter operation.
- Recall the tasks on the shelter checklists.
- Describe how to complete the appropriate registration forms and make referrals for additional services, as needed.
- Explain how to set-up a welcoming reception and registration area.
- Identify internal and external locations for posting signs that clearly communicate shelter information.
- Explain how to set up and monitor a dormitory environment that ensures resident safety and comfort.
- Explain how to set up food distribution areas and monitor consumption to ensure that residents’ dietary needs are met.
- Describe the importance of information sharing in a shelter environment and identify multiple communication strategies.
- Explain the steps required to return a shelter to its pre-disaster condition.
### Audience
Employees, volunteers and partners of the Red Cross who want to work in Red Cross shelters.

### Prerequisites
**Red Cross Employees and Volunteers:**
- *Disaster Services: An Overview* (Modules One and Two)

**Red Cross Partners:**
- *Disaster Services: An Overview* (Module One)

### Length
**Online:**
- This course is self-paced and the completion time may differ among participants. It takes approximately 2.5 hours including the final quiz. Participants must complete the course and pass the quiz to earn a certificate.

**Instructor-led:**
- Consists of four hours classroom time including two-10 breaks. Participants must attend the entire classroom session to earn a certificate.

### Scheduling
**Instructor-led:**
- The recommended class size is a minimum of eight and a maximum of 20 participants. It is at the discretion of the sponsoring unit to determine class sizes.
- Online: this course is available 24/7; participants self-enroll in the American Red Cross Learning Center (Saba LMS)

### Instructor Requirements (classroom)
The instructor-led course is taught by certified basic disaster instructors who have:
- Successfully delivered *Shelter Operations* and *Shelter Simulation*.  
  **Note:**
  - Instructors who have not taught *Shelter Operations* and *Shelter Simulation* should co-teach with an instructor who has *Shelter Operations* and *Shelter Simulation* experience for their first time delivery of *Shelter Fundamentals*.
  - It is highly recommended that all instructors delivering *Shelter Fundamentals* for the first time complete the online version of the course as a preparation method.
- Shelter experience in Red Cross local or multi-chapter disaster relief operations.
- Knowledge of current Disaster Services operational guidance, Red Cross agreements with other agencies that provide disaster relief and local chapter disaster plans.

### Materials and Equipment (classroom)
- *Shelter Fundamentals* Instructor Manual
- *Sheltering Handbook* (optional instructor resource)
- *Shelter Fundamentals* Participant Guide (one per participant)
- PowerPoint presentation
• Computer and LCD projector
• Sticky notes
• Name tags or name tents
• Newsprint paper, easel and markers
• Masking tape
• Course roster
• Participant evaluations (*F5898B*) (one per participant)
• Course certificates (optional)

**Note:**
The PowerPoint slides are intended for classroom presentation only and should **not** be printed.

The instructor manual, participant guide and PowerPoint presentation are downloadable from the Red Cross intranet. The following course materials are available for purchase from the DocStore:
• Printed copies of the *Sheltering Handbook*, instructor manual and participant guide.
• Course materials are designed to be printed double-sided, black and white.
